EXPERIENCE

- **Cash Flow Portal** Seattle, WA
Software Engineer *Nov 2021 - Jun 2022 (Contract Ended)*
 - **Full-stack Development:** Worked with *React*, *Ant Design* and *Flask/GraphQL* to create public-facing services end to end with extensive unit testing using *Pytest*. Resulting in higher customer satisfaction
 - **Streamlined Data Collection:** Created program allowing Account Executives to quickly pull necessary data and dashboards. Saving hours of unnecessary manual work.
 - **Documentation:** Created technical documentation for product features and implementation strategies for future use.
 - **Docker:** Leveraged Docker to containerize Frontend, API, and testing coverage to allow easy deployment and scalability.
 - **Improvements to Codebase:** Reduced tech debt by fixing bugs and improving the automated test suite system. Closed Asana tickets with high throughput.
- **Pius Kitchen & Bath** Seattle, WA
IT Helpdesk *Jun 2019 - Aug 2019*
 - **IT Support:** Helped other employees with their technical problems relating to the in-house employee portal and computer-related issues.

EDUCATION

- **University of Washington** Seattle, WA
BA in Geography - Data Science *Sept 2018 - Aug 2022*

PROJECTS

- **Cryptocurrency App:** Cryptocurrency website where you can view up-to-date news about various cryptocurrencies and keep track of daily changes in prices and movement of prices over select time periods. Created using *React* and *RapidAPI*. Fetched data from the Coinranking API using the *react-redux* toolkit.
- **Expense Manager:** Web App to keep track of your expenses and income. Implemented using *Django* and *Postgres* database with CRUD principles. Features including user registration, account activation through email, login, user settings, and exporting data to CSV.
- **Notes App:** Reimplementation of the iPhone's Notes app using *React* and *Django*. Users have the ability to create, delete, and edit notes using the *Django Rest Framework*. Frontend is built using *Bootstrap*.
- **React Tetris:** Tetris reimaged in *React* using react hooks for a fun side project. Created by going through a tutorial to learn more about react-hooks. Styled using styled-components.

PROGRAMMING SKILLS

- **Languages:** Python, GraphQL, HTML, CSS, JavaScript, SQL, Java, R
- **Frameworks/Libraries:** React, React-Redux, Flask, Django, Pytest, Ant Design, Bootstrap, Material-UI, Pandas, Pre-commit
- **Tools:** Docker, Postman, PostgreSQL, Figma, Linter, RabbitMQ
